The powered stairclimber for quality of life at all levels
“With the LIFTKAR PT we can do a lot of things together.”

LIFTKAR PT  Safe on the stairs. Easy to use.

QUALITY OF LIFE IS ABOUT ENJOYING LIFE TO THE FULL, TOGETHER.

There are many reasons why somebody cannot manage stairs alone for a time, or permanently. For people who need assistance, Sano offers powered stairclimbers that are easy to use, safe and can be operated without excessive effort.

Reliability indoors and outdoors
Cellar, ground floor, first floor, garden – with the LIFTKAR PT you can get your whole house back. And more: going to the doctor’s or post office, driving by car to visit friends and relatives, travelling by plane or train, going to the theatre or an exhibition – everything becomes much easier again.

A powerful battery pack, mobile charger unit (available as an accessory) and a quick-change battery pack ensure that the LIFTKAR PT is ready for action at any time. Special solutions for special requirements:

LIFTKAR PT S and PT Outdoor:
Powered stairclimbers with integrated seat.

LIFTKAR PT Plus, PT Adapt, PT Uni:
Powered stairclimbers for use with a wheelchair.

QUALITY OF LIFE IS ABOUT ENJOYING LIFE TO THE FULL, TOGETHER.
In a class of its own on narrow, steep stairs.

**LIFTKAR PT S 130/160**

**QUALITY OF LIFE IS WHEN YOU FEEL SAFE.**

The LIFTKAR PT S features advanced stairclimbing technology and can handle any challenge. Even narrow, steep, spiral staircases. The 130 model is designed for people up to 130 kg while the 160 is for people up to 160 kg. The soft upholstered and ergonomically-shaped seat guarantees a comfortable ride.

**Safety first**
The stairclimber doesn’t start moving down steps until the brake wheels on the lifting mechanism have reached the next step. With this level of safety, the LIFTKAR PT can be manoeuvred relaxed and confidently with an upright posture and without straining your back.

**Everything under control**
The handle unit is easy to adjust and is equipped with anti-slip material. Use the robust crossbar to support and hold the unit. With up/down switches on both hand grips, the LIFTKAR PT does not need to be adapted when changing between left- and right-handed operators.

**Swiftly or leisurely**
Three climbing speeds are provided, depending on the nature of the stairs: 10, 14 or 18 steps per minute.
With large, non-marking wheels and a wide wheelbase, the LIFTKAR PT Outdoor is easy to manoeuvre smoothly and safely over steps, slopes and bumpy ground outside the home. This model is available for people up to 120 kg or 150 kg.

Mobility in and around the house.

**LIFTKAR PT Outdoor 120/150**

**QUALITY OF LIFE IS WHEN YOU CAN BE ACTIVE TOGETHER.**

With large, non-marking wheels and a wide wheelbase, the LIFTKAR PT Outdoor is easy to manoeuvre smoothly and safely over steps, slopes and bumpy ground outside the home. This model is available for people up to 120 kg or 150 kg.

Safe anytime and anywhere
The powerful braking system inside the wheel is activated when the stairclimber is tilted back slightly. This effectively prevents it rolling away on slopes or ramps. Switching between single-step and continuous mode can easily be done while on the move.

More comfortable seat
The newly-developed ergonomic seat and upholstered armrests provide the highest level of comfort. This is more than just a pleasant detail; you’ll be sitting comfortably even after several hours.

Easy to stow away, ideal for travelling
The LIFTKAR PT is lightweight, can easily be dismantled into three sections, and is just as easy to re-assemble. It can be stowed away in the boot of a car in no time. Ideal for travelling by plane or by train.
"I am more mobile again — even outside my own four walls."

If you rely on a wheelchair for getting around, the LIFTKAR PT offers you more mobility in non-barrier-free buildings. Whether it is on holiday or visiting friends. No worries: these stairclimbers move smoothly and softly without leaving marks or scratches on floor and stair surfaces.

The quality stairclimber for wheelchair users.

**LIFTKAR PT Plus, Adapt & Uni**

**QUALITY OF LIFE IS WHEN YOU CAN SAFELY MANAGE STAIRS IN YOUR WHEELCHAIR.**

If you rely on a wheelchair for getting around, the LIFTKAR PT offers you more mobility in non-barrier-free buildings. Whether it is on holiday or visiting friends. No worries: these stairclimbers move smoothly and softly without leaving marks or scratches on floor and stair surfaces.

**LIFTKAR PT Plus: the all-in-one solution**

LIFTKAR PT Plus is a lightweight and compact companion for people up to 115 kg. The Sano stairclimber is especially quick and easy to re-assemble.

**LIFTKAR PT Adapt 130/160: works together with your wheelchair**

To use the LIFTKAR PT with your own wheelchair, the necessary adapter is fitted by an authorised workshop. This is easily done with most makes and models of wheelchair.

**LIFTKAR PT Uni 130/160: the professional solution**

For self-propelled wheelchairs and transport chairs simply roll onto the platform and secure in place with the retention clamp. Apply the wheelchair brakes, and you are ready to go! Folds away compactly for quick and easy stowage. Also ideal for professional personnel transport.
