THANK YOU

January 2009

Dear Mel and Chris,

You both were so very kind and empathic to me the day I was so bereft, and also when you came to install the chair-climber.

Thank you again so very much. You were and are, blessings. And thanks for your good wishes and offers of help.

I wish you much success in your ventures, and good health, happiness, and peace to your families also. With much appreciation, Myra
